TO: National Pierre de Coubertin Committees

Lausanne, 22 April 2022
Sent by e-mail

Dear Colleagues and Members of National Pierre de Coubertin Committees,

It is my sincere pleasure to announce that we are initiating a new programme of subventions for projects run and implemented by National Pierre de Coubertin Committees (NPCCs).

At its meeting on 29-30 January 2022, the IPCC General Assembly approved this initiative to support selected projects of NPCCs. This decision meets our central objectives to strengthen the relationship between the IPCC and the growing network of NPCCs. The following steps, time line and basic conditions have been agreed:

- **IPCC Executive Board and Board to develop a concise application process for funding;**
- **Biennial invitation for applications (every two years);**
- **Budget: 4.000 € to be split in two project categories (Category 1: funding for one project with 2.000 €; Category 2: funding for two separate projects with 1.000 € each);**
- **Subvention programme starts in 2022;**
- **IPCC to send call for projects: 1 July 2022, for projects to be run and implemented in 2023;**
- **Application deadline: 1. September 2022;**
- **Decision of the Executive Board and Board and announcement of approved projects: 30 October 2022;**
- **Request for interim and final reports.**

Please find attached the application form which you should use for presenting your project(s). It will be a pleasure to receive your stimulating proposals which you may send to the following e-mail addresses: elvira.ramini@bluewin.ch and Wassong@dshs-koeln.de.

Best wishes of success.

Stephan WASSONG
